Environmental Policy Statement

Lancetech Limited (herein referred to as 'Lancetech') seeks to mitigate its environmental effect.

Where feasible, Lancetech must adhere to sound environmental practices regarding:

- a) Collecting and procurement
- b) Conveyance of merchandise
- c) Waste management
- d) Pollution risk management
- e) Selection of Renewable Energy Utilities

The ongoing advancement of the Integrated Management System (IMS) will guarantee that the environmental consequences resulting from Lancetech's operations, services, and products are discovered, evaluated, documented, and managed.

The environment will be a significant element in corporate decision-making at all levels, as a core component of Lancetech's strategic strategy.

Lancetech is committed to advancing corporate and individual environmental accountability to all stakeholders and will proactively pursue opportunities to accomplish this goal.

Lancetech will limit the volume of trash directed to landfills to the greatest extent feasible.

To ensure ongoing environmental enhancement, Lancetech shall:

- a) Prevent pollution generated by its operations, goods, and services.
- b) Complete Waste Diversion from Landfill
- c) Conduct environmental awareness training for all personnel.
- d) Guarantee adherence to environmental regulations and other pertinent obligations.
- e) Strive to minimise energy use
- f) Conduct an annual assessment of the Company's environmental performance and execute necessary corrective measures.
- g) Commit to Nett Zero Carbon objectives, including the establishment of targets and key performance indicators to assess firm performance.

Lancetech will establish appropriate environmental targets and consistently monitor and report performance to fulfil its mission while contributing to the sustainability's environmental dimension.

This policy is fully endorsed by all senior executives and staff of Lancetech.

The Directors are tasked for executing this policy and disseminating it to all staff.
